

HOSEMASTER™

Retract and store your water hose with ease!

- **EASY TO USE** — Simply pull out the amount of water hose you need to make your connection. When you are ready to store the hose, just push the button and the Hosemaster™ electric retraction motor will quickly retract and store the water hose on the reel.

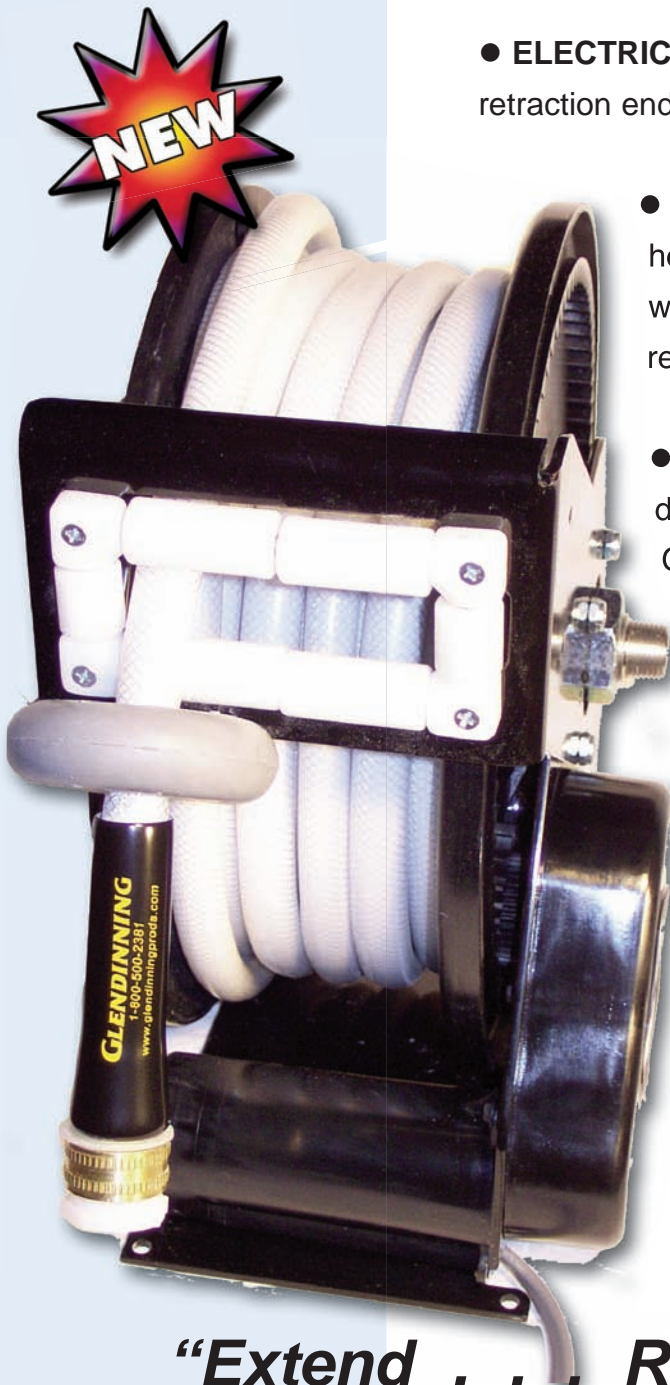

- **ELECTRIC MOTOR RETRACTION** — The electric motor retraction ends the “tug of war” with spring loaded hose reels.

- **INTEGRATED GUIDE ROLLER** — The guide roller helps guide the hose as it is retracted on the reel, as well as providing a positive stop when the hose is fully retracted.

- **COMPACT STORAGE** — Store 35 feet of 1/2” diameter water hose in the smallest possible area. Options available for 50 foot hose length and 5/8” diameter.

- **COMMERCIAL GRADE ROTARY JOINT** — The rotary joint utilizes stainless steel fittings and a dual O-ring seal to provide a very dependable path for the water flow from the coach to the reel.

- **IAPMO COMPLIANT** — The Hosemaster™ is built to conform to the IAPMO standards for potable water systems.

“Extend . . . Retract . . . Relax!”

Storing your Water Hose has Never been Easier

Glendinning first introduced a better way to retrieve and store your RV power cable with the RV-Cablemaster. Now, we introduce HoseMaster—water hose reel and storage system. Why put up with that uncooperative hose when the HoseMaster system will help keep the kinks and mess associated with water hoses in check. What could be easier? When its time to depart, simply push the button and your water hose is automatically retrieved and stored!

HoseMaster Dimensions

SPECIFICATIONS		
<p>HOSE LENGTH — 35' (standard) or 50' (optional)</p> <p>VOLTAGE — 12 or 24 VDC</p> <p>CURRENT (RETRACTION) — 3 amps</p> <p>OVERLOAD CIRCUIT BREAKER — included</p> <p>WATER CONNECTION — 1/2" NPT</p> <p>HOSE TYPE — IAPMO approved (required for potable water applications)</p> <p>WEIGHT — 16 lbs. with 35' hose length</p>		

Part No.	Description	Hose Dia.	Hose Length
05501-R	RV Hosemaster™- 12VDC motor	1/2 inch	35 feet
05502-R	RV Hosemaster™- 12 VDC motor	1/2 inch	50 feet
05503	RV Hosemaster™- 12 VDC motor	5/8 inch	35 feet
05515	Hosemaster™ Installation Kit	N/A	N/A

FEATURE	BENEFIT
Water hose reel with electric rewind motor.	Having your hose automatically retracted and stored on a hose reel is much easier than manually coiling up your hose every time you get underway.
Largest capacity hose reel in the industry - Holds up to 50 feet of 1/2" hose (35 feet standard)	Get as much hose on the reel as you need to reach the campsite hookup
Able to handle 5/8" diameter hoses (1/2 diameter standard)	Larger hoses reduce the fill time, especially for coaches with larger water tanks.
Integrated guide roller	The guide roller helps guide the hose as it is retracted on the reel, as well as providing a positive stop when the hose is fully retracted.
Adjustable guide roller location	The guide roller can be adjusted to any one of 6 locations, providing flexibility in mounting the reel.
