Rear Cap is attached using (4) set screws that lock into a groove in the hawse pipe tube.

In-Limit Guide Roller (included with the CM9 Power Unit) can be mounted on the rear of Hawse Pipe using 4 bolts included with Hawse Pipe.

Bracketing for pipe extensions are mounted to these bolts.

Material: 316 Stainless
Finish: High Polish

Hawse Pipe is designed to fit Hubbell, Mennekes, Marechal and other 200-250amp plugs.
