Cable Installation through Limit Switch Assembly

Installing the power cable in a Cablemaster without disconnecting the limit switch assembly

**STEP 1: REMOVE OFFSET BRACKET**

Remove both bolts which fasten the Offset Bracket to the Limit Switch Assembly.

**STEP 2: REMOVE HEX HEAD SCREWS AND ROLLER**

Remove hex head screws which hold the Roller in place. Remove Roller and pin.

**STEP 3: INSERT CABLE AND REASSEMBLE**

Insert cable through open gap and reassemble Limit Switch. Attach Offset Bracket.
