## CARLEMASTER REMOTE CONTROL PROGRAMMING

Locate the program switch under the access panel on the front of the Remote Control module as shown below (Fig. 1).

Read through the steps below BEFORE you begin. You will have 10 seconds to complete the programming sequence.

- 1. Push the program switch (SW1) (Fig. 2) until the red program LED lights solid, then release switch.
- 2. Push button 1 on the remote transmitter until the program LED goes out (Fig. 3).
- 3. Push button 1 on the transmitter again, the program LED should flash slowly ... now release button.
- 4. Remote is now programmed. Test unit.

NOTE: If the remote does not work, make sure that the transmitter LED is flashing when button 1 is pressed, and that the battery is good. Repeat steps 1-4.

5. Repeat steps 1-4 for second transmitter.
