CRMA Cablemaster units, take all the work out of managing your boats shore power cable.

These self contained “ready to fit” systems feature an innovative clutch mechanism that allows the storage reel to “free wheel” making it easy and quick to use - simply pull out whatever length of shore power cable is required, and when its time to retract the cable, press and hold the control switch (supplied) to engage the powerful DC motor (12v or 24v) that will effortlessly retract the cable and re-store it on the reel.

Optional accessories available include a waterproof hawse pipe, RF remote control, and other custom feature sets.

Give yourself a break - stop struggling with tangled, twisted or dirty shore power cables - fit a Glendinning CRMA Cablemaster unit, and relax!

- **EASY TO USE** - Simply pull out the amount of shore power cable you need to make your connection, then when ready push the button and the cable will be retracted and stored on the reel.

- **‘ZERO EFFORT’ PULL-OUT FORCE** - Our patented drive motor mechanism disengages itself when the cable is extended. No heavy pulling!

- **COMPACT STORAGE** - Stores 50ft of 50amp (USA) or 20m of 63amp (EU) cable in the smallest possible area.

- **EASY TO INSTALL** - Deck, bulkhead or overhead mounting options.

- **MARINE GRADE DESIGN** - The Cablemaster™ product line is specifically designed for the marine environment - built to last! All electrical connections are completely sealed.

**Extend...Retract...Relax!**

CABLEMASTER™ - CRMA50/63
Handling and Storage System for Shore Power Cable

Specifications

VOLTAGE.................................... 12 or 24 VDC
OPERATING CURRENT.............. 5-7 amps nominal
.................................................. 15 amp peak load
CABLE SIZE............................. 50amp (USA) or 63amp (EU)
CABLE SPECIFICATION........... #6AWG 50amp / #4AWG 63amp
cable - 105degC rating with
molded twist lock plug
CABLE LENGTH...................... 50 ft (50amp) / 20m (63amp)
WEIGHT................................... 62lbs
CERTIFICATIONS..................... UL355 approved, meets all CE
requirements including ignition
protection
