

Cablemaster™ RV

Powersafe 50Amp RV Cordset

Easily identify faulty power panels and keep both you and your coach safe.

- **PATENTED POWERSAFE TECHNOLOGY** - Red LED gives user easy visual reference if reverse polarity or loss of ground is found at power source.
- **POWER INDICATOR LED** - Green LED gives simple reference of correct voltage.
- **COMPLIANT WITH NEW RVIA CODE** - Complies with RVIA Code NEC 70 2020 requiring indication of loss of ground or reverse polarity.
- **ANY 50AMP APPLICATION** - Available with any of our CRR RV Cordreels, or separately in a hardwired application.
- **HEAVY DUTY CONSTRUCTION** - Can take abuse, constructed from a high-impact polymer.

EASY-OUT UNPLUG LEVER

Large, molded Easy-Out lever to easily disconnect from the power panel

MOST PLIABLE CORDSET IN THE INDUSTRY

Special Type SEOW power cable is the most flexible power cable on the market. It will stay flexible down to -10° F

ABLE TO PERFORM OEM HYPOT TEST

Contains internal switch which allows builder to bypass monitoring circuitry and perform Dielectric Withstand Test

Glendinning Products, LLC.
